Newspaper Web Site

This is a newspaper website. The website allows the content manager (Editor) to edit the news on the website and the readers to view the news. The readers can leave comments on the news. On the other hand, the quality control can check the news and comments in order to remove anything that is not suitable.

This web site consists of the following:

- Welcome page to the website
- Login page for Editor, Reader, and Quality Control
    - Editor
        - Add/Edit/Delete news category (political, sports, etc.)
        - Add/Edit/Delete news (Editor can specify/change category)
        - Upload images related to the news
        - Review the messages of the readers
        - Respond to the readers' messages
    - Reader
        - Register
        - Upload a copy of his/her national ID or passport during registration
        - Search page for the any piece of news using keywords and/or category
        - Add, Edit, Delete his/her comment
        - Send a message to the Editor regarding an error on specific piece of news
        - Review the response of the Editor

    - Quality Control
        - Delete any comment and/or piece of news
        - Leave comment regarding any piece of news (invisible to the readers)
- Help page
    - Provide information like Q&A about the web site
    - Allow the different users to search on the help
    - Only the Editor can edit the contents of this page
